## LETTER OF RECOMMENDATION

I hereby certify that Miss. \_\_\_\_\_ is well known to me for last two years as regular student of this School in Finance faculty. Her co- operation, mutel exchanging, intelligence, readiness, enthusiasm, curiosity, labour and motivation have always impressed the entire teaching faculty.

Above all, She possesses a charming personality combines with an unavoidable magnetism that draw everyone towards her, a senses of tolerance and acceptance of people and Situation different then herself and right balance between self confidence and a sense of humour which I believe is essential to overcome all sorts of impediments in life.

Regarding her characteristics, I found her very impatient curious and ambitious girl . She got impatient to complete everything for which she is appointed. She frequently gets eager and passion at about every new dealings. So, she never faltered to pose questions in my lectures. Indeed, sometimes we had even long and comic conversation which I feel refreshing. So I'm sure the girl will give a mellifluous influence where she gets enrolled.

I wish her success in every walk of her life ahead.

.....

Lecturer of Finance
